

Another Great One Retires

By Mike Lyons, Golf Course Superintendent, Old Hickory Country Club

Hi everyone. Hope all is well. As many of you may know, the WSGA office has moved to a new location. However, what you may not know is that one of their truly great employees is retiring. Diane Haas has been with the WSGA for over 25 years. Diane's husband Gene retired as the Executive Director of the WSGA a few years back. Now it is Diane's turn. Diane has been a very key component of our association. Those who have served our association in one way or another know her well. She has been taking care of our membership dues, directory, financials and anything else we could throw at her. Diane was a key element in our early beginnings. She will be truly missed by us all and we wish her the best. Thank you again, Diane.

Like everyone else the grass is growing here in Beaver Dam, dandelions are popping and green, tee and fairway aeration are nearing completion. For the most part, staying ahead of or trying to figure out what Mother Nature will bring us is always a challenge. Getting things completed in a timely fashion is never easy. It is either too wet, too windy or there just is not enough time. But it sure does feel nice to be outside.

Our first couple meetings have been well attended. I hope this trend will continue for the rest of the year. It is never too early to volunteer your course for next season. We are always open to education ideas as well. Hope everyone is ready for the summer months and that they treat you and the turf well. Take care. 🌿

syngenta

A little goes a long way.

Now there's a fairway fungicide that protects against all major turf diseases. What's better, it offers a low 0.75 oz fairway rate for control of dollar spot and brown patch. New Headway™ fungicide's dual mode of action provides complete systemic protection, so the whole course can have the full protection it needs.
