# The Professional for versatility.

## Groundsmaster 52<sup>®</sup>

The machine for all seasons... as a grass mower, the 52" offset deck not only cuts a wide swath, but also trims tight around trees and obstacles. As a snowblower, the 2 stage attachment clears a path 48" wide. Other accessories include 48" V plow, 48" rotary broom, leaf mulcher and vacuum. Hydrostatic drive for smooth, one-pedal control of forward and reverse. Hydraulic deck lift for fast, easy transport.

### 25 YEAR PLAQUE

Allan Kess is presented a 25 Year Plaque. Alan is superintendent of Oneida Golf Course.

heads and kill themselves, they're usually injured seriously. If you're any higher than the third floor, chances are good you won't survive the fall. You would probably be better off fighting the fire.

Nearby buildings seem closer than they really are and many have died trying to jump to a building that looked five feet away but was actually fifteen feet away.

#### CALLING THE FIRE DEPARTMENT

Believe it or not, most hotels will not call the fire department until they verify whether or not there really is a fire and try to put it out themselves. Should you call the front desk to report a fire, they will almost always send the bellhop, security guard or anyone else that's not busy to investigate. Hotels are very reluctant to "disturb" their guests and fire engines in the street are quite embarrassing and tend to draw crowds.

In the New Orleans hotel fire, records show that the fire department received only one call from a guest in one of the rooms. The desk had been notified of a fire 20 minutes earlier and had sent a security guard to investigate. His body was later found on the 12th floor about 10 feet from the elevator.

Should you want to report a fire or smell of smoke, ask the hotel operator for an outside line for a local call. Call the fire department yourself!
