

NEWS RELEASE

The Wisconsin Turfgrass Association held its organizational meeting on October 8, 1980 at the Gobbler restaurant at Johnson Creek.

The association is being established to encourage turfgrass research specifically directed to Wisconsin growing conditions and problems. Initial members represent the sod production, golf course maintenance, landscape contracting, parks, lawn care, and other allied turf fields. However, membership is open to any person or organization interested in improving Wisconsin's turfgrass program.

An interim board of directors was named representing various areas of turf care. Charter membership solicitation has begun. Information and applications can be received from:
