MIDWEST REGIONAL TURF CONFERENCE

February 28 — March 2, 1983

Golf Courses — MONDAY

- 1:00 Welcome
Marvin Phillips
- 1:30 Attitude, Latitude & Longitude
Andy Bertoni
- 2:00 Seven Principles of Turf Care
Don White
- 2:30 Groceries — Everybody's Business
Eric Osterle
- 3:00 An Irishman at Purdue
Eddie Connaughton
- 3:15 Break
- 3:30 Turfgrass Germplasm Explosion
Eliot Roberts
- 4:00 Research & Seed Utilization
Leah Brillman
- 4:45 Close

Golf Courses — TUESDAY

- 9:00 Records, Planning & Budget
Bill Lyons
- 9:30 Upgrading Golf Courses
Mike Hurdzan
- 10:00 Trouble — Disease & Rebuilding
Kim Mullendore & Duane Dammeyer
- 10:30 Break
- 10:45 Sand Topdressing
Dave Ward
- 11:00 Solid Tine Greensairing
Leonard Schnepf
- 11:15 Roots — Maintain What You Have
Don White
- 1:30 Regrassing Greens
Oscar Miles
- 1:50 Learning through Soil Testing
Paul Rieke
- 2:30 Nitrogen Research
Dean Mosdell
- 2:45 Starting New Grass
Eliot Roberts
- 3:15 Break
- 3:30 Life Styles & Lawn Care
Dave Martin
- 4:00 Anthracnose or Roa annua
Karl Danneberg
- 4:30 Close
- 6:30 Banquet

Lawn Care — MONDAY

- 1:15 Welcome
Ray Freeborg
- 1:30 An Irishman at Purdue
Eddie Connaughton
- 1:45 Research & Seed Utilization
Leah Brillman
- 2:15 Lawngrass Seed — A Cultivar Clinic
Eliot Roberts
- 2:45 Attitude: Where Are You?
Andy Bertoni
- 3:15 Break
- 3:30 Seven Principles of Lawn Care
Don White
- 4:00 Groceries — Everybody's Business
Eric Osterle
- 4:40 Close

Lawn Care — TUESDAY

- 9:00 Life Styles & Lawn Care
Dave Martin
- 9:40 Learning Through Soil Testing
Paul Rieke
- 10:20 Nutrition For Turf
Richard Rathjens
- 10:55 Nitrogen Research
Dean Mosdell
- 11:20 Storage of MO Nitrogen Fertilizer
Jim Mello
- 11:50 Lunch — Group Meetings
- 1:30 Low Volume Spraying
Tom Jessum
- 2:00 2, 4-D ' The Backbone of Lawn Care
Phil Hess
- 2:20 Cool Weather Brown Patch
Jeff Lefton
- 2:40 Roots — Maintain What You Have
Don White
- 3:10 Break
- 3:30 Solid Tine Greensairing
- 3:50 Three Years of Solid Core Aerifying
Jim Mello
- 4:15 Roundup and Overseeding
Gary Kitchel
- 4:45 Close
- 6:30 Close

Sports Turf Managers Assoc. — TUESDAY

- 9:00 Managing Turf on Soil
Harry Gill
- 9:30 Research, USA
W. H. Daniel
- 10:00 Managing the Denver Stadium
Steve Wrightsman
- 11:00 Soil Heating in Europe
John Souter

Golf Courses — WEDNESDAY

- 9:00 Bluegrass Blend After Roundup
R. Harris
- 9:40 Roots — It's Easy To Kill Them
Stan Zontek
- 10:15 Using An Economu Water System
Alan Wehr
- 10:40 Fairway Improvement
L. Hantle
- 11:10 Operating the Small Budget Course
Dwight Ladd
- 11:30 Arsenics Usage
Bill, Daniel, Bill Ward
- 11:50 Conference End

Public Golf Course Owners Assoc. — TUESDAY

- 9:00 A Review of Conditions
Don Essig
- 9:30 Taxes and Finances
Bill Lyons
- 10:00 Promotion of Golf, Discussion
Lorraine Abbott
Randy Ballinger, Pres., Upland, IN

Lawn Care — WEDNESDAY

- 9:00 Starting Grass Seedlings
Eliot Roberts
- 9:30 Thatch, Adaphic Properties & Control
Karl Freeborg
- 10:00 Growth Regulator Update
Ray Freeborg
- 10:30 Fusarium Update
H. Wilkenson
- 11:00 Earthworms in Lawns
W. H. Daniel
- 11:20 Discussion
R. P. Freeborg, Leader
- 11:50 Conference End

WISCONSIN TURFGRASS ASSOCIATION

Dear Turf Manager:

The Wisconsin Turfgrass Association is pleased to join again with the College of Agricultural and Life Sciences, University of Wisconsin-Madison, and the University of Wisconsin Extension in sponsoring a combined Research Conference and Annual Meeting.

The date is January 27, 1983, and the location is the Public Events Building, Arlington Experimental Farm, located north of Madison approximately 14 miles, just to the west of highway 51. Please note the program and the map giving directions to the location. (See reverse side.)

About 150 turf specialists attended the first such conference last year when we had opportunity to view many turf exhibits and visit with colleagues and university specialists. The same informal format will be supplemented this year with more formal research presentations. Starting time is 9:00 a.m. which will allow time for both informal and formal learning opportunities.

Fees for the conference are \$15.00, including lunch. Students and University personnel fees are \$5.00. Advanced registrations and checks are urgently needed to plan for lunches, which will be catered to the event. There can be no lunch guarantees for those who do not **advance register by January 20!**

There are no nearby restaurants. Any profits made by the event will be used to support further turf research and education in Wisconsin. We hope you are planning to attend!

The event is planned "rain, snow or sunshine" — but in the event of inclement weather conditions you may wish to call Dr. Robert Newman, (608) 262-1490 to be certain of its status.

Advanced Registration Form

Wisconsin Turfgrass Research Conferences and Annual Meeting

Name: _____ Telephone No: _____

Mailing Address: _____

Company or affiliation: _____

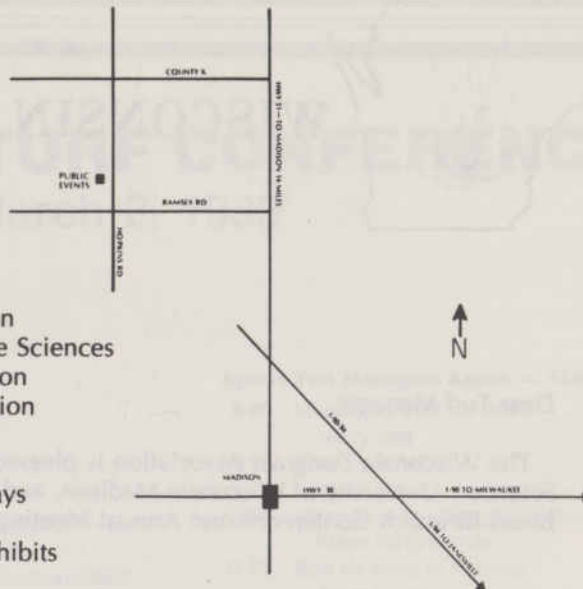

Make check payable to: Wisconsin Turfgrass Association (\$15.00 each person)

Mail check to: Jim Huggett, Long Island Sod Farm, Route #1, 5146 Ridge Road Marshall, Wisconsin 53559

Dedicated To Better Turf Through Research and Education

Wisconsin Turfgrass Association Research Conference and Annual Meeting

Public Events Building
Arlington Experimental Farm
January 27, 1983

Co-sponsors:

Wisconsin Turfgrass Association
College of Agricultural and Life Sciences
University of Wisconsin-Madison
University of Wisconsin-Extension

9:30 — 10:30 a.m.

Registration and coffee
Research and Education Displays

Greenhouse and laboratory exhibits
Poster presentations
Microscopic and diagnostic panorama
Computer projects

10:30 — Noon

Research Update:

Disease research in 1982 - Dr. Gayle L. Worf
Wisconsin's Pilot Turf IPM Project - Dr. Dan Mahr

12 Noon — 1:15 p.m.

Lunch
Remarks by University Administrators

1:15 p.m.

Wisconsin Turfgrass Association Annual Meeting — Dave Payne, President

Research Update continued

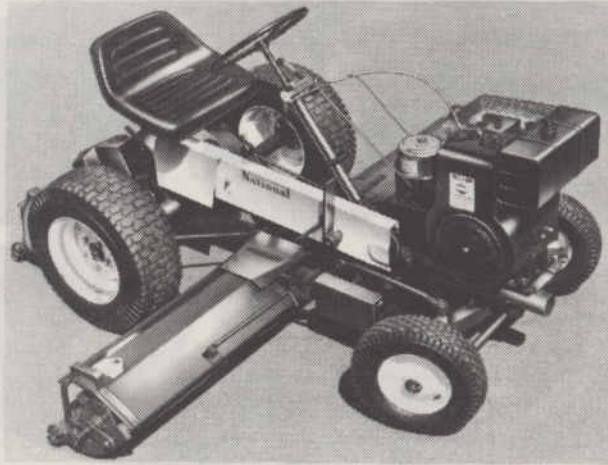

- a. Pesticide Recertification Process
- b. Growth retardants — Dr. Robert Newman
Training turf students — Dr. Jim Love

Questions, answers and research displays continued

3:30 p.m.

Adjourn

Get the most performance and dependability for your money!

Today, when purchase price, fuel economy and longevity are most important, count on a National to do more work than competitive machines, and do it with easier, faster and less maintenance, over a longer period.

- **National's initial cost is less** than that of mowers sold to do the same job.
- **Less down time.** Standard off-the-shelf items like belts and bearings which are available from any local industrial supplier.
- **Greater fuel economy.** 44% to 62% less fuel consumption than power robbing, hydrostatic type rotary mowers.

- **One-third to one-half the cost** of maintaining a National versus competitive models because of its easy accessibility.
- **Model 84 gets the job done faster** by cutting a swath a foot wider than a rotary.
- **Quality construction.** More years of service. For example, we still cut our own gears out of solid, quality steel blanks.

Building functional quality since 1919
