

UPDATE YOUR CONTROL SYSTEM AT A REASONABLE PRICE!

New!

COMPUTER-RADIO IRRIGATION CONTROL SYSTEM

By COPS UNIVERSAL

Buckner®

- Communication by 2-way radio verifies each transmission
- No need for new controllers or costly installation of communication wire
- Ability to transmit (and log) flow data back to central computer
- Maximize your pump's efficiency by grouping valves as you choose, regardless of hard-wiring constraints
- Call today for a free survey and quote!
