

The Inner Cut

By Chad A. Johnson

It's hard to concentrate on the task at hand when the Packers are playing their first game of the preseason! I can't believe that football season is under way, especially as I look at my summer project list and see what hasn't been done yet. I know that I'm ready for Badger and Packer weekends and the euphoria they bring. Many of you will be losing some of your summer staff and will have many fall projects to accomplish. Just remember to save time for football!

Turf Talk

As the heat and humidity relaxed so did the rain. LDS, Black cutworms, Poa decline, fairy ring, and depleted water sources were just a few grumblings heard around the state. Keep in mind you are on the home stretch and pray for a good fall season.
