OFFICIAL BULLETIN

July, 1958

NOTICE: July Meeting

- PLACE: Wayzata Country Club, Tuesday, July 15
- TIME: Golf and Get-together at 2:00 p.m. Prizes for the golfers.
- HOST: Richard McLaughlin
- DINNER & MEETING: Dinner will be at 6:00 p.m. in the Hunts Room of the Clubhouse.
- EDUCATIONAL SESSION: A discussion by Dick McLaughlin covering the construction and maintenance of Wayzata Country Club, followed by question and answer and general discussion period.

LOCATION

Wayzata Country Club is located 1/2 mile west of Wayzata on U. S. Highway 12.

This club is the newest complete family club in the state. It boasts an eighteen hole golf layout, riding facilities, tennis facilities, a swimming pool that meets all the olympic standards, and a beautiful and modern clubhouse.

The golf course was laid out by Robert Bruce Harris and follows the modern trend in architecture toward sweeping curves, large tees and greens and sandtraps meant to enhance the beauty of each hole as well as provide a hazard.

Construction began in the summer of 1956 and the course was opened for play late in the summer of 1957.

If you can, be at this meeting. It should prove to be not only interesting and enjoyable, but highly educational.

* * *

" SCOTTY "

A postcard dated 12 June, London, England: "We have enjoyed our trip very much so far-- Leaving London tomorrow for Paris, then on to Brussels for the fair, and finish up in bonnie Scotland." signed, Scotty MacLaren.

GENERAL

The mosquito control job in the Twin City Metropolitan area seems to be very effective. Those who heard Mr. Buzicky speak at the Minnesota Conference realize what a great undertaking the Control is. It already has had a real measure of success; more power to the Control!

Down Mankato way we hear that Irv Fuller's son is cutting a wide swath. In addition to outstanding scholarship as a high school Senior, this young man has won a musical scholarship to Oberlin College in Ohio.

Jim Graham reports that Milwaukee is not producing the normal amount of Milorganite, and that our old friend, O. J. Noer is sweating out a tremendous demand with a relatively short supply. Fertilizer dealers have their problems too.

We wonder whether we will ever have what we used to call normal weather again, with rains in early spring, tapering off into July and August as temperatures go up...Oh, and snow coverage through the winter.

* * *

A postcard that you can write and mail in a matter of minutes with a little news about yourself or job will make this a better bulletin.
