

HOLE NOTES

MINNESOTA GOLF COURSE SUPERINTENDENTS' ASSOCIATION Monthly Newsletter March 1962

The HOLE NOTES publication for this month may not look like an official publication; but, given time to get to the printers, there should be a noticeable change.

Most important change in the Association this year is a Public Relations (PR) Committee, headed by Milt Wiley. Mr. Wiley will handle all contacts for job placements and for locating job openings. The Association does not want to become embroiled in determining "who should get what job". However, as you know, there has been much by-passing of the organization. If you would make it known to Milt that you desire a change, we are sure it will be kept in strictest confidence.

When the Association is notified of an opening, it will appear in this publication or be announced at monthly meetings, whichever is the most current.

Milt will also work closely with press and radio for favorable press releases.

Job Mart:

UNIVERSITY OF MINNESOTA GOLF COURSE. No official announcement has been handed to the Association, so contact our P.R. man, Mr. Wiley, if more information is desired.

Scholarship:

Mr. Richard Stadtherr, who has been closely associated with the Minnesota Association, has been awarded the \$1,000.00 GCSA Scholarship. Congratulations Mr. Stadtherr.

Following is a quick summary of the Annual Conference and Banquet. Read it carefully and study it. There may be pros and cons at the next meeting.

Minnesota Golf Course Superintendents Association
