HOLE

NOTES

SEPTEMBER 1962

NAME CHANGE -- The name of the new Executive Golf Course at Hazeltine Lake has been changed to HAZELTINE NATIONAL GOLF COURSE according to Milton Wiley, major-domo at Hazeltine.

FAR AWAY PLACES -- The turnout for the Mankato meeting was heartening. Fifty-three persons enjoyed the hospitality of host Irv Fuller and the Mankato Country Club. Cliff Anderson and Ken Boelter of Sioux Falls, So. Dak. and Cliff Vohs from St. Cloud were some of the distant journeymen present. Our thanks to Jim Latham and the Milwaukee Sewage Commission for the fine educational presentation. The integrated bus (Swedes, Norwegians and other minority groups) which traveled from the Twin Cities to Mankato was absolutely dry according to disgusted veteran bus rider Art Thorud.

TOURNAMENT -- The annual Minnesota Superintendents Tournament will be held at Interlachen Club, September 10, 1962. Golf will begin shortly after 12:00 noon. Be sure that you invite your grounds chairman. It is imperative that reservations be made with the secretary for all persons attending, including yourself. Be prepared to pay for all guests upon arrival at Interlachen on the afternoon of September 10.

High quality prizes, and plenty of them, are being purchased so everyone including the non golfers will have an opportunity to win.

NEXT MEETING -- The October meeting will be held October 2 at the new Toro Mfg. plant at 82nd St. and Lyndale Ave. So. in Minneapolis. Dr. Watson reports a new cafeteria and acres of floor in the new building.

THINK -- No one is useless in this world who lightens the burden of another.
-- Anon.

OLD TIMER -- Rusty Smith writes from his new club in Payson, Arizona, "On your way to San Diego, I will try to show some reciprocation should any or all come to Payson. Except for storm periods, we play golf all winter. Summer really is our season -- when it's 115° in Phoenix we in the mountains (5000') enjoy fine weather."

Note: Rusty, this could be an invitation to a lot of "freeloaders".

NEEDLE MINER -- Can be treated right now! (Late August or early September) Every Spruce in the Twin Cities is infested (according to the editor). Use 2 parts of 50% Malathion E. plus 2 lbs. of 50% W.I. DDT per 100 gallons of water. Care should be taken to direct the spray into the middle of the tree. Sufficient pressure must be used to accomplish this.

HOLLOW EXCLAMATION-- Leo Feser, Orono Supt., was invited to dinner by his new daughter-in-law Marilyn (Mrs. Robert, Medina Supt.) Feser. When the delicious looking roast chicken was placed before him Leo asked, "What did you use to stuff it with Marilyn?" "Stuff it!" she exclaimed, "This bird wasn't hollow!"

* * *

HENRY C. BOHKS

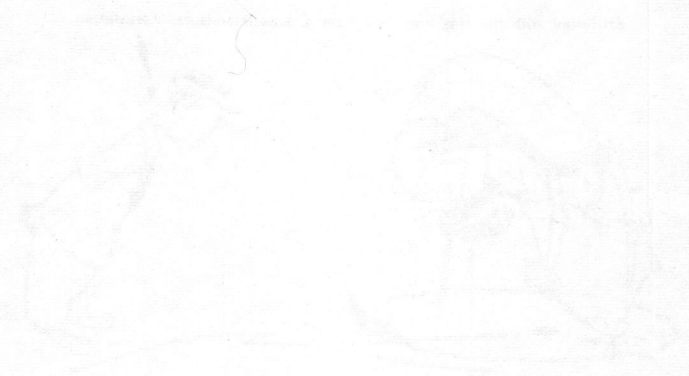

* * *

The Mankato meeting had a saddened note when it was learned that Mr. Hank Bohks had passed away two days before and was that evening being viewed at a local Mankato mortuary. On behalf of the Association we extend our sympathy to the Bohks family.

JOB OPPORTUNITY -- Small (20 acre) industrial plant needs gardener-supt. Must know flowers and shrubbery. Inquire F.R. man Wiley, 609 Harmony Circle, Wayzata, Minnesota.

RESERVATION CARDS FOR INTERLACHEN ARE POURING IN -- WHAT ABOUT YOURS?
