Alfred W. Wareham
Minnesota Golf Course Superintendents Association
5600 Chowen Ave
Edina, Minnesota 55410

Dear Al:

The following is what I am requesting to be included in the April Golf Course Hole Notes.

Each and every one of you that may be interested in observing the '75 snow mold test plots are welcome to view the test plots this spring. As you may remember, snow mold plots are located in Alexandria, Bemidji, Duluth, Mendota Heights, Redwood Falls, Rochester, Roseau, and St. Paul Campus. The golf club and cooperating superintendent are:

1. Alexandria Golf Club, Joe Smith
2. Bemidji Town and Country Golf Club, Jeff Buettner
3. Northland Country Club, E. Maki
4. Somerset Country Club, G. Murphy
5. Redwood Falls Golf Course, Q. Castle
6. Rochester Golf and Country Club, Kurt Erdmann
7. Oak Crest Golf Club, L. Rice
8. St. Paul Campus, Ward Stienstra.

May I suggest that you contact the superintendent in charge at the course where you want to view the snow mold plot results. He will be informing me when the plot area is ready to observe and at that time he and I will establish a date to meet at the golf course and observe the snow mold plot, weather permitting. You are welcome to join us. Please coordinate your visit to any snow mold plot area with the above named persons.

Sincerely,

Ward C. Stienstra
Extension Plant Pathologist
