

RESEARCH PROGRAM

I am happy to report that the response to our mailing soliciting funds for the Research Program has been excellent. The enclosed suggested invoice was very helpful as guidelines for the club. Our thanks to both the superintendents and the clubs for their contributions so far to this very important program. The fund balance is now over two thousand dollars and it looks like we may be able to start a summer chemical replacement research study. All superintendents who haven't heard from club officials in regard to the invoice should try to make contact in the near future. Only you know the proper time and place to bring up the subject. We hope you will be successful. If all goes well, we hope to present a tentative summer program to the membership at our meetings in either April or May.

George Ostler, Research Chairman

DELINQUENT DUES NOTICE

All members of the M.G.C.S.A. have been billed twice for their annual dues. However, not all have responded. For those members, we call your attention to the following section of the bylaws: "The right to membership shall cease after dues are delinquent for ninety days after the due date which in every case shall be the first day of January. The Secretary shall inform delinquent members that they are delinquent thirty days after delinquency begins and again sixty days after delinquency begins. At the end of ninety days if said delinquent member has not yet paid his dues, the Secretary shall drop the individual from membership."

**Nutrient deficiencies,
weeds, diseases,
thin turf, insects.**

For the superintendent who has everything . . . or anything . . . or who just wants to make a good thing better . . . ProTurf offers research fested, golf course proven professional turf products.

Just give me a call.
