

MEET YOUR SUPERINTENDENTS !

DICK DeSPLINTER is presently in his seventh year as golf course superintendent and manager of the Village Golf of New Hope. Before starting at New Hope, Dick earned a degree from the University of Minnesota where he focused on both agronomy and business courses. He also put in one year at the Brookview Golf Course before starting his present position. He is currently serving his second term on the Board of M.G.C.S.A., having been elected Treasurer at this year's Annual Meeting. Not bad for a guy who only joined the association in 1972. When not at the golf course, Dick really enjoys hunting which might explain why he and his wife, Candy, share their household with three dogs.

JOHN NYLUND is one of the young lions of M.G.C.S.A. Since joining the Association in 1973, John has served on several different committees as well as rarely missing a golf outing, meeting or dinner. It is this type of enthusiasm and participation that really makes M.G.C.S.A. a great organization. John started at the Braemar Golf Club in 1963 and worked part time until 1969 when he was named superintendent. Quite an accomplishment to be associated with one course for fifteen years at John's early age. His hobbies include anything to do with the outdoors, with golf, hockey and boating his favorites. He doesn't mind returning indoors, either, where his wife, Lesley, and daughter, Jennifer, one and one-half years old, are always waiting.
