

NEW CUSHMAN GREENSAVER AERATOR

The accurate aerator that gets aeration done 10 times faster than most other methods

In the raised position you're able to travel quickly between greens...and that saves time. When you reach the green just move the hydraulic lever at your side until the Greensaver is lowered into the turf. There's no need to stop the vehicle. You can keep moving and aerate at speeds up to 6 mph.

Cores are pushed into the rotating drum as the Greensaver penetrates the ground.

Cushman® Turf Care System cuts equipment costs 35%, labor costs 50%.

Purchase one of the basic Cushman Turf-Truckster vehicles available in 3 or 4 wheel models with 12 or 18 hp. Then add as many of the new modular accessories as you need for the work you have to be done. No need to buy another expensive vehicle. In minutes you can attach the module you need by using simple pins that slide in and out. No need for tools.

TOP DRESSING
Mounts on Truckster chassis.
No need for separate engine.

SPIKING
Spike 18 greens
in 2½ hours.

DUMPING/HAULING
1000 lb. payloads.
Manual and hydraulic dumpina.

SPREADING
Spread up to 40' swath.

SPRAYING
Precise spraying rates

RESEARCH PROGRAM ENLARGED

A smaller than usual but enthusiastic crowd inspected winter research plots and planned a summer research program at Hazeltine Nat'l. G.C. during the April meeting. A nice clear sunny day allowed those interested to accompany Dr. Ward Stienstra out to his test plots at Hazeltine and discuss the tests results which will be published in a forthcoming issue. Later at the business meeting the membership voted to extend the Research Program to include a summer activity which would include dollar spot test trials, course visits, and the recording and evaluation of data for the five month period. More information will be reported after final plans have been formulated. Bill Johnson presented the following reclassifications: Fritz Harens to AA, Doug Dieter to A and Duane Kahmeyer to F2. The following were approved as new members by the Board: Mike Kasner B2, Wapicada Golf Club, St. Cloud; Fred Anderson B2, Olympic Hills G.C., Mpls.; Tom and Tim Westland C, Green Lea Golf Club, Albert Lea. Our thanks to Host Superintendent Nick Dunn for the use of the fine Hazeltine clubhouse even though we were not able to tee it up on that wonderful golf course.

See you next month at Forest Hills Golf Club where we will be able to tee it up for sure! A separate notice of that event has already been sent to you.

Impressive History. Host Superintendent Nick Dunn shows Joe Moris, left, players' signatures from three National Tournaments held at Hazeltine.

Last Cash Ticket. Carl Johnston, right, sells last cash dinner ticket. New policy of advance sale to go into effect in May.

KICK THE CHEMICAL HABIT
with high analysis moisture conserving natural fertilizer.
