

MEET YOUR SUPERINTENDENTS !

DAN HANSON has been doing an outstanding job for the past two seasons as golf course superintendent at the Minikahda Club. Dan is another one of a corps of M.G.C.S.A. members whose lengthy work experience beguiles his youthful appearance. Originally from the St. Cloud area, Dan put in five seasons at the St. Cloud Country Club while working on his degree from St. Cloud State. After that he attended Penn State where he graduated from the turf program in 1972. Before accepting his present position, Dan worked for three years each at the Somerset Country Club and at the Pierre Municipal Golf Club in Pierre, South Dakota. A member of M.G.C.S.A. since 1972, Dan loves to golf and spearfish when he is not spending time with his wife, Cindy.

JERRY McCANN, as the saying goes, "got in on the ground level" of the Daytona Golf Club which is located near Anoka. In 1963 Jerry saw the need for another golf course in this area so he took it upon himself to build this fine 18-Hole layout and he has operated and maintained it ever since. Having had a farming background, Jerry was no stranger to working with turf and he readily admits to receiving much helpful information from several other members of his family who are superintendents in the Twin Cities area. 1973 also was an important year as a new, completely weatherized, indoor tennis and racquetball facility was added to the Daytona complex. It makes sense that Jerry, his wife, Carol, and their five children are now all tennis buffs but they also enjoy boating a great deal as a summertime recreation.
