## GREEN CLIPPINGS

CLIP 1: Congratulations are in order for M.G.C.S.A.'s Dan Hanson of the Minikahda Club. Dan was recently awarded a plaque by G.C.S.A.A. for successfully completing all the requirements necessary to become a Certified Golf Course Superintendent (C.G.C.S.). A great deal of time and effort is spent in completing the stringent requirements and it is truly an honor to complete this difficult task. Dan deserves the honor as he is a fine young superintendent with a great future ahead of him.

CLIP 2: HOLE NOTES is saddened to pass on the announcement of the death of Roy Egeberg, owner of Egeberg's Harley Davidson. Egeberg's is a valued member of M.G.C.S.A. and we express our deepest sympathy to the Egeberg family during this time of sorrow.

CLIP 3: Seventy-five percent of the speakers are confirmed for G.C.S.A.A.'s 1980 Conference and Show in St. Louis, Missouri. The topics for the educational sessions have been finalized and center around the theme, "Conservation: Our Key to the Future".

CLIP 4: "Water, Water Everywhere" seemed to be the August theme song for four M.G.C.S.A. members who had major state events either delayed, shortened or cancelled due to our excessive summer rains. Jim Nicol at Coon Rapids, John Steiner at White Bear, Kurt Erdmann at Rochester and Gerry Bibbey at Keller have all now received their experts rating in hydrology.
