## IT'S NOT ALWAYS THE YIPS. . . .

The average golf shoe has 12 spikes, and the USGA has computed that a player averages 28 paces per green; 28 paces times 24 means 672 impressions; 672 impressions times 18 greens equals 12,096 impressions per round per player. Assuming 200 rounds are played each day on a course, the greens receive 2,419,200 impressions daily - or more than 72 million holes each month. And you wonder why you can't sink a putt!

**We're seen in all the right places.**
