HENDRICKSON**

Another golf season is nearing the time when play begins to taper off and we start to plan our maintenance program for the winter months. Certainly we have many weeks of good golfing weather remaining, but the season of heavy play is nearly past. This is a time when we should sit down and make a few notes to ourselves for next year's planning. Perhaps we learned a new method of handling young people we supervise or something we should have done differently. We might have some new thoughts about fungicide which didn't work so well this year. It is too easy to forget these little ideas once the golf season has ended. So, write it down in your records to be read again as you plan for 1982.

Last month's meeting at the University of Minnesota Golf Course was very well attended. 107 dinners were served. Those who were able to attend enjoyed the equipment show by R. L. Gould, the many discussions with other M.G.C.S.A. members and the golf course which was in excellent condition.

Thanks to Host Superintendent Russ Adams! It was a perfect day.

Thanks also to Dr. Ward Steinstra, Dr. Don White and Dr. Don Taylor for the time they spent talking with us at the University's Research Plots.

The September meeting is the Annual MGCSA Golf Tournament on September 14 at the Willmar C.C. and the Little Crow G.C. Host Superintendents Jim Wodash and Jim Brown have a great day planned so don't miss this big event. It is one of the most enjoyed events the M.G.C.S.A. has each year. Put a 4-Some together and get your registration sent in now.

SEE YOU THERE!
