## **Thought For The Month**

*"Have you ever noticed, as you exchange thoughts and feelings with others, that we usually get back exactly what we give? When we try to understand others, they reciprocate automatically by trying to understand us. When we offer help, we also get offers of help. When, instead, we express quick irritation, anger, or intolerance, that's usually what we get in return."*

**- Bits & Pieces (March 1982)**

## FROM THE PRESIDENT'S DESK

LARRY MUELLER

Our membership includes the top turf specialists in the state. Our University people are ready to come to our aid with a wealth of information and we should feel free to use this service as the need arises.

The friendships and acquaintances we make with other superintendents and associates through our organization can also be a great asset to us when we need help or advice. A phone call to a fellow superintendent can sometimes solve our problem and put our minds at ease. It seems that no matter what new problems we experience, someone else has experienced it before. The willingness of our fellow superintendents to readily share information and experience with us is our greatest asset and makes our organization all the stronger. No one should be too proud to take advantage of this opportunity.

I would like to thank John Fuller and Midland Hills for hosting the May meeting, a delicious lunch, beautiful golf course and free gas carts. Also thank you to Jerry Commers of Cushman Motors for a nice equipment display with complimentary beverages and caps. This all added up to a perfect day.

In June we will be at Madden's where Scott Hoffman will be our host superintendent. Turf Supply Co. will sponsor Dr. Bill Daniels of Purdue University as our guest speaker. I hope to see all of you there June 14.

The new 1982 M.G.C.S.A. Roster is completed and should be in the hands of each member by now. This is a valuable tool and one of the most important services rendered by your association. Don't be afraid to call other colleagues and seek advice and information. It also would be a good idea to read your association's bylaws for a better understanding of just how the M.G.C.S.A. works.
