

## RESEARCH COMMITTEE REPORT

In March our RESEARCH FUND DRIVE kicked off with the mailing of suggested invoices to all clubs indicating the amount we felt clubs in certain categories should contribute.

Thanks to the efforts of the superintendents at forty-two courses we have received \$4,875.00 so far. I know there is a right time to approach this subject with your Board. For you who have not responded as yet, keep looking for that right time because we are counting on all of you to further our cause.

### JOHN NYLUND

Concrete results of the RESEARCH PROGRAM are in evidence elsewhere in this issue where Dr. Stienstra reports on winter test plots.
