

4) Biological Snow Mold Control, Dr. Ward Steinstra, University of Minnesota.

5) Development of a "Pythium Predictor Model", Dr. Steinstra and Reutor Stokes Co.

6) USGA Green Section Research

All MGCSA members should be proud of the contribution they are making to turfgrass research. To quote a recent letter from William Bengeyfiel, National Director of the USGA Green Section, "The list of projects now supported by the MGCSA is impressive and meaningful...the projects are far more worthy than normally encountered. Congratulations."

The Research Committee wishes to thank all our contributors and a special thanks to our many associate members donations that helped make this another record year. We would also like to remind those of you that haven't yet donated, that it is not too late. Make your check payable to MGCSA Research and send to Warren or Anita at the M.G.A. office.

## STODOLA RESEARCH GOLF SCRAMBLE

On September 9, 1985 the M.G.C.S.A. Guest Scramble will be sponsoring the Stodola Research Fund Booster. We will be honoring long time greenskeeper, Harold Stodola, for his achievements in our industry. Proceeds will go to the H. B. Musser Foundation and the M.G.C.S.A. Research Fund.

Kerry Glader and Scott Hoffmann, Co-Chairmen Research Committee

Randy Nelson and Chris Hague, Co-Chairmen Golf Tournament
