Mike Olson, host

SUPPORT THE H. B. MUSSER FOUNDATION

During issues to come Scott Hoffman and myself will be informing you about what we are funding and the progress that has developed in these research areas.

In this short note I would like to ask all of our membership to support the Musser International Turfgrass Foundation. In honor of H. B. Musser, the developer of Penncross Creeping Bentgrass and Pioneer-Researcher-Educator, the Musser Turfgrass Foundation was formed. The goal of this organization is to raise funds to support: A) grants to turf-oriented graduate students and B) grants for needed research by any segment of the turfgrass industry.

Through these research grants the Musser Foundation has funded the following:

OHIO STATE UNIVERSITY: Life History and the control of the black turfgrass *Ataenius*.

CORNELL UNIVERSITY: Idiology of *Fusarium* on bluegrasses.

PENNSYLVANIA STATE UNIVERSITY: Microclimate in turfgrasses.

TEXAS A&M: Physiology of stress on turfgrasses.

MARYLAND UNIVERSITY: Effect of wetting agents on rooting of turfgrasses.

How can you help? On every certified bentgrass seed container or bag there is a BLUE TAG known as the CERTIFICATION TAG. If you will remove this tag and mail it to me, I will mail all that I receive in a single mailing to the Musser Foundation on behalf of the MGCSA. It is a very worthwhile project that costs us nothing

and supports a most beneficial turf oriented program. We also have a goal to develop a research tournament benefitting out association and the Musser Foundation.

Anyone with questions regarding this program may feel free to call me at work or home. As Musser President Fred V. Grau ends all his letters, "Sincerely yours for better turf".
