

## SECOND TURF TOURNEY

### BIG SUCCESS

The Second Annual Turfgrass Research Benefit Day, on Friday, June 17, was a big success. Held on 20 prestigious Twin City courses, the Minnesota Turf Tourney had over 160 players this year. The weather was great, and all the courses were in fine shape. Golden Valley Country Club was the site of this year's wrap-up dinner. At the conclusion of the rounds at each of the courses, all the competitors descended on Golden Valley to talk about their day and receive the awards over a wonderful steak dinner.

Our special thanks to the 20 participating clubs who donated tee times and carts for this benefit. The 20 clubs were:
