Characteristics of Minnesota Woodland Wildflowers

Ed. Note: Information in this table is from a presentation given by Dr. Bob Mullin from the Horticulture Department University of Minnesota.

Sanguinaria canadensis* Common Bloodroot	White E. Spr.	Green	Full Season 8-12"	Decid. W. Lt. Shade	High Humus Moist	5.5-6.5	Seed Divisions
Smilacina racemosa False Solomon's Seal	White Spring	Red	Full Season 24-80"	Woods, Meadow Sun. Lt. Shade	Rich Moist	5.5-6.5	Rhizome Seed
Trillium grandiflorum* Showy Trillium	White Spring	Green	Full Season 12-15"	Decid. W. Lt. Shade	Sandy Loam	6.0-7.0	Rhizome Seed
Uvularia grandiflora Large Flowered Bellwort	Yellow Mid Spr.	Green	Full Season 12-24"	Conif., Decid. W. Shade	High Humus Moist	5.5-6.5	Seed Rhizome
Uvularia Sessilifolia Little Merrybells	Cream Mid. Spr.	Green	Full Season 10-15"	Conif., Decid. W. Shade	High Humus Moist	5.5-6.5	Seed Rhizome
Viola Violets	Purple, White Yellow Spring	Dry	Full Season 4-8"	Conif., Decid. W. Shade	High Humus Moist	6.0-7.0	Seed Division

*Popular and relatively easy to grow.

Thompson Commander Series Brass Rotor

For over 80 years Thompson gear driven rotors have been operating on golf courses and commercial projects around the world. Long recognized as the world's finest, these units will make you forget there is such a thing as sprinkler maintenance.

Thompson Golf

- Valve-in-head electric or hydraulic
- Water efficient. Near perfect CU requires less run time per station.
- Pressure can be regulated from the top while reading the gauge mounted on the top of the sprinkler
- 7 year (non-prorated) warranty
