

## Advertising Claims Under Scrutiny

Chemical companies as well as lawn-care providers are coming under fire for false or misleading advertising. This scrutiny focuses on claims that products or services are "non-toxic" or completely "safe."

While FIFRA does not regulate lawn-care company advertising, it does prohibit advertisers of chemical products from making claims as part of a pesticide's distribution and sale that differ substantially from claims made on the label. Superintendents should be knowledgeable and candid about the toxicity of golf course chemicals when talking to the media about the use of those chemicals.
