Quick Calibrator

Quick, easy, accurate calibration.

Are you still calibrating your sprayer the old, difficult way with containers, stop watch and calculator?

The patented QUICK CALIBRATOR is all you need to quickly, easily and accurately calibrate your nozzles.

Select the nozzle spacing and sprayer speed, then place the QUICK CALIBRATOR under the nozzle. The QUICK CALIBRATOR's computer automatically calculates the application rate and displays it in

large, easy-to-read numbers. The QUICK CALIBRATOR even turns itself on and off automatically!

No containers - No stop watch - No calculator.

QUICK, EASY, ACCURATE.

Check your nozzle calibration quicker than you can say "Environmentally responsible chemical application."
