

# IZATY'S

Izaty's Golf and Yacht Club offered the MGCSA a pleasant get-away early in January. Although the golf clubs are still kept in a safe place collecting dust right now, Izaty's offered a number of other ideas to keep the members of the MGCSA from thinking of the sound of engines running and golf balls whizzing through the air. For the adventurous at heart the great pond Mille Lacs was there to give the most hardy fisherman a challenge at landing a great walleye. Unconfirmed reports had Joe Moris of Tartan Park winning the unofficial fishing contest with a truly great catch. Others went to the area's newest

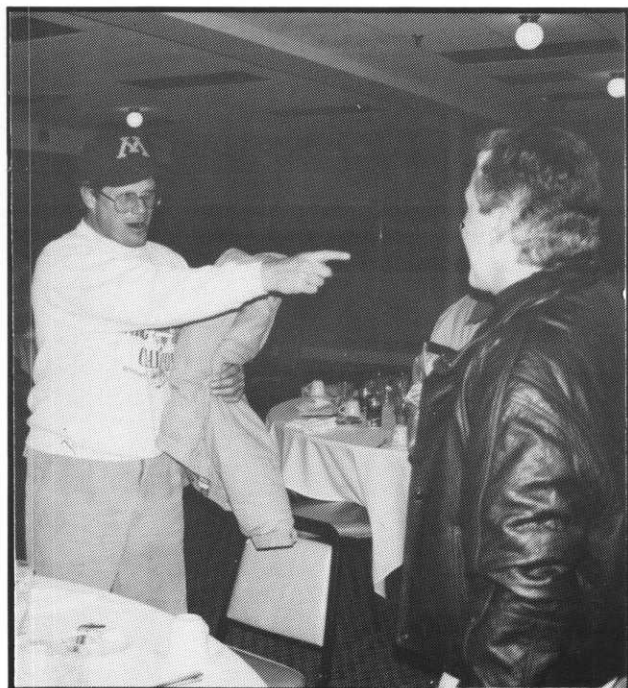

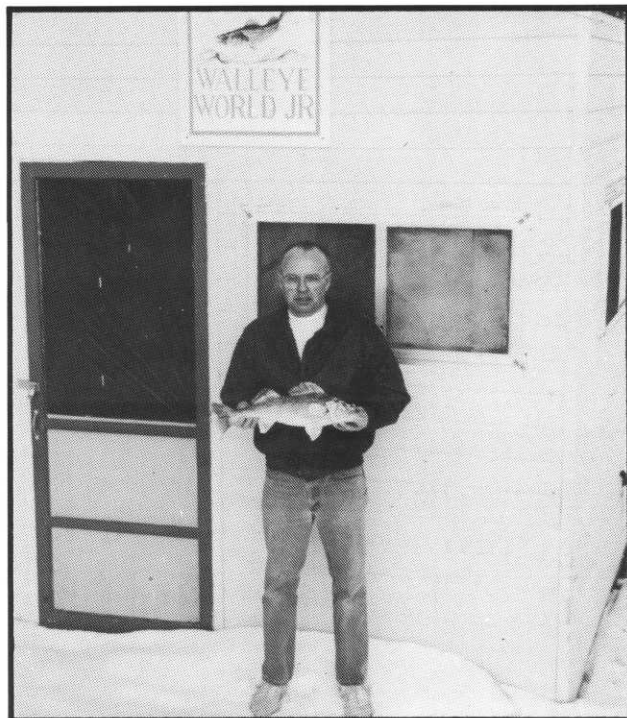

attraction, the Grand Casino, to try their gaming fortunes. The evening was capped off with a great prime rib dinner that made everyone look forward to coming back next year.

The staff at Izaty's should really be commended for letting the MGCSA hold this first meeting of 1992. Thank you to Host superintendent Steve Schumacher and General Manager Dan Nelson, who were there to make sure our every need was met. Next year, remember to leave a day open to attend the January meeting at Izaty's. The plans are already being made to make it one excursion that you don't want to miss.— Dale W.
