John Granholt, Membership Chairman

North Star Turf Goes "National"

North Star Turf recently announced the addition of National Mowers to its product line. On January 1, 1993, North Star Turf will assume the distributorship of all National products previously distributed by Cushman Motor Company of St. Paul.

"We're extremely excited about the opportunity to offer the complete National line to our many customers," said Dan Miller, president of North Star. "National's reputation for manufacturing quality mowers for almost 75 years is something that we look forward to talking about."

North Star is currently stocking machines and parts and will begin servicing and sharpening all National products in its St. Paul service facility.

THE FUTURE IS HERE NOW!!
