

Special GCSAA S&R Grants Offered to Graduate Students

Outstanding graduate students in the field of golf course management education and research now have a new grant program available to them.

The Golf Course Superintendents Association of America (GCSAA) Graduate Student Grants Program will provide annual awards of \$5,000 to individuals pursuing advanced degrees in academic fields related to golf course management.

The goal of the program, sponsored by the GCSAA Scholarship and Research Foundation, is to identify and encourage tomorrow's leading educators and researchers.

To be eligible, students must be currently enrolled in a master's or doctoral degree program related to golf course management. Students must also plan to pursue an academic career in a university setting.

Applicants will be evaluated on academic excellence, potential to make outstanding contributions in research and education, peer recommendations and previous accomplishments in their field. In addition to the cash award, winners will receive an expenses-paid trip to the GCSAA International Golf Course Conference and Show.

The deadline for applications is October 1. Awards will be presented in early February. Application forms are available from the GCSAA development department (913/841-2240).

Cover-up.

Underneath some beautifully conditioned, championship golf courses are mountains of trash, the scars left by years of garbage replaced by a beautiful, invaluable green belt. And, landfill covers are only one way today's professionally managed golf courses are helping make our world a better place.

Who's in charge of keeping these amazing ecosystems in harmony with nature? Today's golf course superintendents. They're part troubleshooter, part business manager, part scientist and all environmentalist — dedicated to making our world a greener place.

WE KEEP GOLF GREEN.
