Ahead of the Storm —

(Continued from Page 8)

What Does it Cost?

Detailed and accurate forecasts can help your course become more efficient. Daily forecasts with updates tailored for your location range nationally from \$250 to \$425 a month.

The Bottom Line

When you stop to consider the thousands of dollars that are spent daily in running your course, the cost for a private weather service isn't hard to justify. A private service is your best source for accurate and detailed weather information. After all, when severe weather is approaching, you can't really put a price on the safety of your crew and your golfers.

Ray Hall —

(Continued from Page 9)

bike. In fact, this May he's scheduled to present a military wood carving to the commander of the 9th Field Artillery, his old army unit, at Fort Sill, Okla.

Where Are They Now?

The accompanying story on Ray Hall, 76, is the first in a series of articles on retired golf course superintendents to be published in *Hole Notes*.

They will be published in the order they are received, following the mailing of a questionnaire.
