Congressional Action —

(Continued from Page 10)

In addition, the bill:

- Cuts the State Revolving Fund by \$365 million
- Eliminates the President's proposed \$1.8 billion revolving fund for drinking water infrastructure
- Eliminates all available funds for water quality monitoring and standards
- Prohibits funding for the Great Lakes Initiative
- Eliminates funding of the Gulf of Mexico Program

The House Appropriations proposal would devastate protection of the nation's lakes, rivers, estuaries and wetlands. In addition to cutting the overall one-third EPA budget cut, riders would impose additional funding cuts and limit the implementation of existing Clean Water Act provisions until they are replaced by weaker requirements in a reauthorized bill.

The Penn Pals

Creeping Bentgrass

• Penncross

The world standard

• Penneagle

For the finest fairways

• PennLinks

Upright, grainless greens

• PennWay

Blended for fairways

• PennTrio
