

Where Should I Go to College?

A new GCSAA publication, "Guide to Colleges," can help students and their parents answer this question. Available in June, the guide offers information on 2- and 4-year turf-related educational programs.

The guide is divided into four sections:

- Section one details the golf course superintendent's profession and relationship to the golf industry.
- Section two describes a sample curriculum outline for both 2- and 4-year programs.
- Section three is organized alphabetically by schools and offers an in-depth profile of each institution. Each profile includes the institution's name, geographical location by city and state, degrees offered, brief description and "fast facts" about the undergraduate program, special features of the program, educational facilities and contact information.

Section four is a geographical listing of all national and international turf-related programs that GCSAA has on file. The listing includes 1-year certificate programs, correspondence courses and short courses.

To select the program that best fits their needs, students and parents also find helpful the information on faculty, special research and laboratory facilities, the types of degrees conferred, the number of hours required for a degree, internships required, career placement assistance, tuition costs and much more.

The "Guide to Colleges" will be distributed free to all participating 2- and 4-year institutions of higher education. It will also be available for \$30 through the GCSAA bookstore.

Agenda—

(Continued from Page 29)

Noise

Experts advise that stricter regulations on workers' exposure to noise can be expected. The National Institute for Occupational Safety and Health (NIOSH) is working on new recommendations that the Occupational Safety and Health Administration (OSHA) may adopt through rulemaking.

Plan of Action: GCSAA will monitor and report on regulatory developments and work with the Outdoor Power Equipment Institute as appropriate.

Coming Next Month:

The State Legislation/Regulation
section of the 1997
Legislative/Regulatory Agenda.

Grow With Us™!

New construction or course renovation, contact LESCO for premium performance turf seed varieties and 18-24-12 starter fertilizer with PolyPlus® SCU. To obtain more information on LESCO turf products contact your LESCO Professional Golf Representative or call (800) 321-5325.

We'd like to say we buried the competition. But that would mean putting an extremely inferior fertilizer in the ground.

Only par ex with IBDU® has the highest WIN percentage. We have more than Lebanon® and more than Scotts®. Because the higher the Water Insoluble Nitrogen content, the longer your turf will remain green and the less chance there is for burn.
