Cushman Welcomes New Service Coordinator

Cushman Motor Company recently announced the addition of Brian Lein as its new Service Coordinator. Lein will be responsible for the scheduling of all service department activities and will also handle the processing of warranty claims with the factory.

Before joining Cushman Motor Company, Lein had over fifteen years of golf course equipment maintenance experience working for Rich Acres Golf Course in Richfield and Brackett's Crossing in Lakeville.

Lein's years of golf course experience makes him well-qualified for the position. "We feel very strongly about finding someone who fully understands the concerns of golf course operations in order to better serve our valued turf customers," said Jerry Commers, President of Cushman Motor Company.

We'd like to say we buried the competition. But that would mean putting an extremely inferior fertilizer in the ground.

Only par ex with IBDU® has the highest WIN percentage.
We have more than Lebanon® and more than Scotts®. Because the higher the Water Insoluble Nitrogen content, the longer your turf will remain green and the less chance there is for burn.
