John Deere

180 Walk-behind Greens Mower

Built as tight as its cutting width.

- A powerful, 4.0-hp engine powers the 180 while isolation mounts and lateral bracing help reduce vibration.
- External differential drive on the 1870 splits power to both traction rolls – for exceptionally straight tracking and easy turning.
- The standard John Deere-manufactured 11-bladed reel on the 180 helps deliver an exceptional quality-of-cut.
- Operator-presence safety bail fits smoothly against the handlebar.
- Dual aluminum traction rolls on the 180 are smooth to provide a more consistent surface. They combine to cover the entire length of the bedknife.
- Both the 180's machine-grooved and machine-smooth front rollers are cut from solid bar stock to deliver more strength and better mowing performance.
- Grass catcher designed to maximize clipping retention, stays securely in place and is easy to remove and install.
