

# U of M Announces Interactive Turfgrass Website

*Equipped With Interactive Message Board Called "Turf Talk In Minnesota"*

The University of Minnesota is pleased to announce an interactive website to service all facets of the turfgrass industry. This website will serve as the focal point for the turfgrass science program at the University of Minnesota and is equipped with an interactive message board called

"Turf Talk in Minnesota". This message board will be moderated by Dr. Brian Horgan's research and extension program and will encourage discussion on current topics facing the industry. "Recognizing that it will not be possible to answer every question from industry representatives, I

developed 'Turf Talk in Minnesota' which will provide a forum for turfgrass managers to answer each others questions. Hopefully this will enable turfgrass managers with relevant information to help create a more educated practitioner", said Dr. Horgan. Other general information on faculty members that participate

## Pipe Logic 101

GOLDLINE® pipe = Better drainage  
Better drainage = Drier course  
Drier course = Longer playing season  
Longer playing season = More rounds per year  
More rounds per year = Higher profits  
Higher profits = Happy management  
Happy management = Shorter meetings  
Shorter meetings = Longer happy hour  
Longer happy hour = Hero status

Therefore:

**GOLDLINE® pipe = Hero status**

**PRINSCO**  
*The pipe with the gold stripe.*
