

# New Prague Golf Club Assistant Jeff Pint Wins His Second MGCSA Championship

In blustery conditions with wind gusts up to 30 mph, Jeff Pint, Assistant Superintendent at New Prague Golf Club, shot a six-over par 78 at Edina Country Club on September 13th to win the 29th MGCSA Championship. Jeff is a past champion who won the event in 1999.

Two-shots back at 80 was Dan Hinton, Jackson Golf Club, Barry Provo, Deer Run Golf Course, and Tom Notch, Bent Creek Golf Club, tied for third by carding 81s.

Edina's Host Superintendent Mike Kelly had Edina Country Club's golf course in tournament shape. Pins were tucked and the wind made for a tough track.

The staff at Edina Country Club was very responsive and supplied first-class accommodations. The MGCSA expresses thanks to PGA Pro Marty Lass and his staff for their help in running this event.

Terry Negen, The Crossings Golf Club in Montevideo, won First Flight honors by netting a 2-over-par 74 after firing an 86. Negen won by three-shots over Scott Austin, Midland Hills Country Club; Dave Kazmierczak, Prestwick Golf Club, and Mike Nelson, Dacotah Ridge Golf Club.

## In Bounds - (Continued from Page 34)

reward you with a bit of extra income.

Take for example my Nose Visor. Base ball caps are sooo blasé, and your normal full head visor can be a real nuisance, especially if you want sun on your fore head, or in some cases five head. Thus I have created the Nose Visor.

My nose seems to be very sensitive to the damage caused by the sun, yet I don't want to give up a tanned fore head. Not only that, it is thought that wearing a hat will hasten balding, something I would like to slow down. With these thoughts in mind I developed a simple plastic device to be specifically worn upon your nose. Sold in packs of five and available in multiple colors I figure that everyone will one a dozen or more.

Football stars can wear them under their helmets to prevent sunscald. Because Army Helmets lack a bill, the specialized camouflaged Nose Visor has a military application. And just imagine the advertising potential when businesses begin putting their logo on the band. I am getting excited just thinking about the limitless possibilities.

But before I get too carried away I think I'll get a patent! Hmm, I wonder if there is room on the Lesco Truck for a display panel?
