Precision Turf Announces Additions to Product Portfolio

Pursell Technologies Inc., Sylacauga, Ala. announced Precision Turf & Chemical, Inc. as the exclusive distributor to POLYON polymer-coated fertilizers in Minnesota. Pursell Technologies Inc. is one of the world's premier developers and manufacturers of controlled release fertilizers. POLYON coating is the most advanced and predictable fertilizer coating technology on the market today. Through a patented reactive layers coating (RLC) process customers get a 100 percent controlled release fertilizer.

Magic Green Corporation, Silex, Mo. also announced that Precision Turf & Chemical, Inc. is the exclusive distributor to WHITE GOLD & SALT EXIT in Minnesota. Magic Green Corporation has incorporated into the White Gold family Nano Technology Nutrition, which accelerates the uptake of plant nutrients.

President Dave Krupp added "Precision Turf & Chemical has always strived to provide the highest quality products. The addition of POLYON and the WHITE GOLD family only will enhance our product offering and allow us to keep up with the ever-increasing technology available to the end user."

Tiziani Golf Car of Minnesota Donates \$4,000
