

*At Minneapolis Convention Center*  
**Minnesota Green Expo Jan. 3-5**  
**The Buzz Starts Here!**

The Minnesota Nursery and Landscape Association (MNLA) and the Minnesota Turf & Grounds Foundation (MTGF) are partners in the regional trade show and educational program which targets a broad spectrum of green industry professionals. The show includes 90 educational seminars and 1,000 trade show booths and exhibits. For registration information, visit [www.minnesotagreen-expo.com](http://www.minnesotagreen-expo.com) or call toll-free 888-886-6652.

*Give Us Three Days...*

...and the Minnesota Green Expo will give you a leg up on what's new to ensure you're on the cutting edge of the market. All of it: products, accessories, educational seminars, marketing and business workshops, parties, receptions and networking.

It's all business -- and it's all at Expo. Make it your business to be there in January, or you'll be left behind!

*Don't Believe Us?*

Listen to what people are saying...  
 + "With the trade show, educational seminars and parties the Minnesota Green Expo is a feast and an indispensable source of information about the current market."

+ "This show is the best educational investment we make. I encourage all my employees to attend."

+ "This show delivers the best price for the quality of information the speakers provide."

Highlights of the 2007 turf and grounds educational program include:

- + A-Z of Turf Care for Amateur Fields
- + Low Input IPM/WPM
- + Foliar Feeding
- + Turf Problem Solving Techniques
- + What's the Problem with OM in Greens
- + Multiple Target Principles to Maximize Golf Course Insect Control
- + and much more!

The show's audience includes nursery and greenhouse growers; garden center operators; landscape and irrigation contractors; landscape designers; lawn, tree and gardening professionals; golf course and park superintendents; school and cemetery grounds supervisors; sports turf managers and arborists. Over 7,500 green industry professionals are expected to attend from Minnesota, Wisconsin, Iowa, North Dakota, and South Dakota.

**Ever seen electricity leak all over a green?**

**Neither have we.**

**The run-all-day, 2500E Hybrid Greens Mower.**

It's about advanced technology. And common sense. The 2500E is a hybrid mower that puts power in its proper place. With a choice of gas or diesel engine, the 2500E powers the reels using a belt-driven alternator. By removing all the hydraulics from the cutting units, we've eliminated 102 potential leak points.

And the 2500E is battery-free so the reels get consistent power right from the moment of engagement. Which leads to a consistent cut, all day long.

Call today for a demonstration.
