Greeninger, and Chris Hoff.*

**By the time you read this,
your height-of-cut could have been adjusted.**

NEW QUICK ADJUST REELS

Yes it's now this easy to adjust the height-of-cut. Just click in a power drill on either side of the cutting unit, hit the trigger, watch the gauge, and you're done. No wrenches, and no need to double-check both sides. (Thanks to SpeedLink technology, they match perfectly every time.) But don't just read about these reels. Call your John Deere Golf distributor for a demo. Consider us part of your crew.
