

# INFORMATION ABOUT STROKES - EVERYONE - SHOULD KNOW

Remember the First Three Letters...S.T.R.

## STROKE IDENTIFICATION

During a BBQ, a friend stumbled and took a little fall. She assured everyone she was fine (they offered to call paramedics) she said she had just tripped over a brick because of her new shoes.

They got her cleaned up and got her a new plate of food. While she appeared a bit shaken up, Ingrid went about enjoying herself the rest of the evening

Ingrid's husband called later telling everyone that his wife had been taken to the hospital and passed away. She suffered a stroke at the BBQ. Had they known how to identify the signs of a stroke, perhaps Ingrid would be with us today. Some don't die. They end up in a helpless, hopeless condition instead.

**A neurologist says that if he can get to a stroke victim within three hours he can totally reverse the effects of a stroke...totally.** He said the trick was getting a stroke recognized, diagnosed, and then getting the patient medically cared for within 3 hours, which is tough.

## RECOGNIZING A STROKE

Sometimes symptoms of a stroke are difficult to identify. Unfortunately, the lack of awareness spells disaster. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking three simple questions:

**S** \*Ask the individual to SMILE.

**T** \*Ask the person to TALK and SPEAK A SIMPLE SENTENCE (Coherently) (i.e. It is sunny out today.)

**R** \*Ask him or her to RAISE BOTH ARMS.

If the person has trouble with any one of these tasks, call an emergency number immediately and describe the symptoms to the dispatcher.

## New Sign of a Stroke: Stick out Your Tongue

Another 'sign' of a stroke is this: Ask the person to 'stick' out his tongue... If the tongue is crooked or if it goes to one side or the other, that is also an indication of a stroke.

Get green results.

Apply Milorganite after turf quits growing and before a permanent freeze-up or snow cover.

*Dormant feeding with Milorganite assures...*

- 1-2 weeks earlier spring green-up
- Quicker turf recovery from winter damage
- Vibrant turf color and growth rates through mid-May
