WinField Acquires Precision Turf & Chemical

Acquisition strengthens service to customers in the Upper Midwest

SHOREVIEW, Minn. – WinField, one of the nation’s largest distributors of professional products for turf, ornamental, pest control, aquatics and vegetation management, announced today it has completed the acquisition of the assets of Minnesota-based Precision Turf & Chemical. The combination of WinField’s integrated system of partners, services and solutions, and Precision Turf’s team of experts with 30 years of experience, will come together to give customers in the Upper Midwest access to a broader range of products and services.

There has been no change in personnel and we will be providing the same great products and fine service on which we have built our reputation in the industry. With Winfield Solutions you can expect the same dedication to quality and service that you have come to expect from Precision Turf & Chemical over the years. Of course, now you also can expect terrific new additions to our product line.

WinField has 80 service centers across the country and close to 100 sales representatives in golf course management, lawn and sports turf management, pest control, aquatics and vegetative management markets.

“We are excited to strengthen our presence in the Midwest by adding experienced and knowledgeable experts with localized expertise to our team,” said Kanchan Chavan, Director, Professional Products Marketing, WinField. “This acquisition allows WinField to bring the same broad range of products, insights and expertise used at the country’s most prestigious golf courses, sporting venues and commercial properties to the Midwest customers.”
