

# SPRING CLEAN UP A PROBLEM?

## Gould's have your answer

LET US DEMONSTRATE  
THE JACOBSEN-RODGERS 729E-HL . . .

Designed to do big jobs —  
anyway you want to do them.  
Patented rubber fingers  
pick up debris  
that other sweepers leave behind.

Offers as standard equipment, a 12 h.p. engine, universal hitch, Tractor seat control of sweeper clutch and throttle. Plus hydraulic loading at any height up to 8½ feet, with automatic dumping into waiting truck or trailer for faster, more efficient trash handling.

Features self-contained hydraulic pump and reservoir with conveniently located hydraulic controls.

Hydraulic loading and dumping system is operated by four cylinders: One to lower stabilizer shoes, two others to raise hopper to desired height and a fourth to dump hopper.
