

Northrup King Names Wensman

Jeffrey Wensman has joined Northrup King Co. as a Turf Specialist for the Professional Turf Products Department. He is a 1977 agronomy graduate of the University of Minnesota.

Wensman is based in Minneapolis and is responsible for sales in Minnesota, Wisconsin, Iowa and eastern portions of the Dakotas and Nebraska. He handles Northrup King's complete line of professional turf products, including straight varieties, custom and special mixes and pre-formulated mixtures, calling on professional users and distributors.

Northrup King's Professional Turf Products Department markets improved varieties on turfgrass seed for professional users.

**Nutrient deficiencies,
weeds, diseases,
thin turf, insects.**

For the superintendent who has everything . . . or anything . . . or who just wants to make a good thing better . . . ProTurf offers research tested, golf course proven professional turf products.

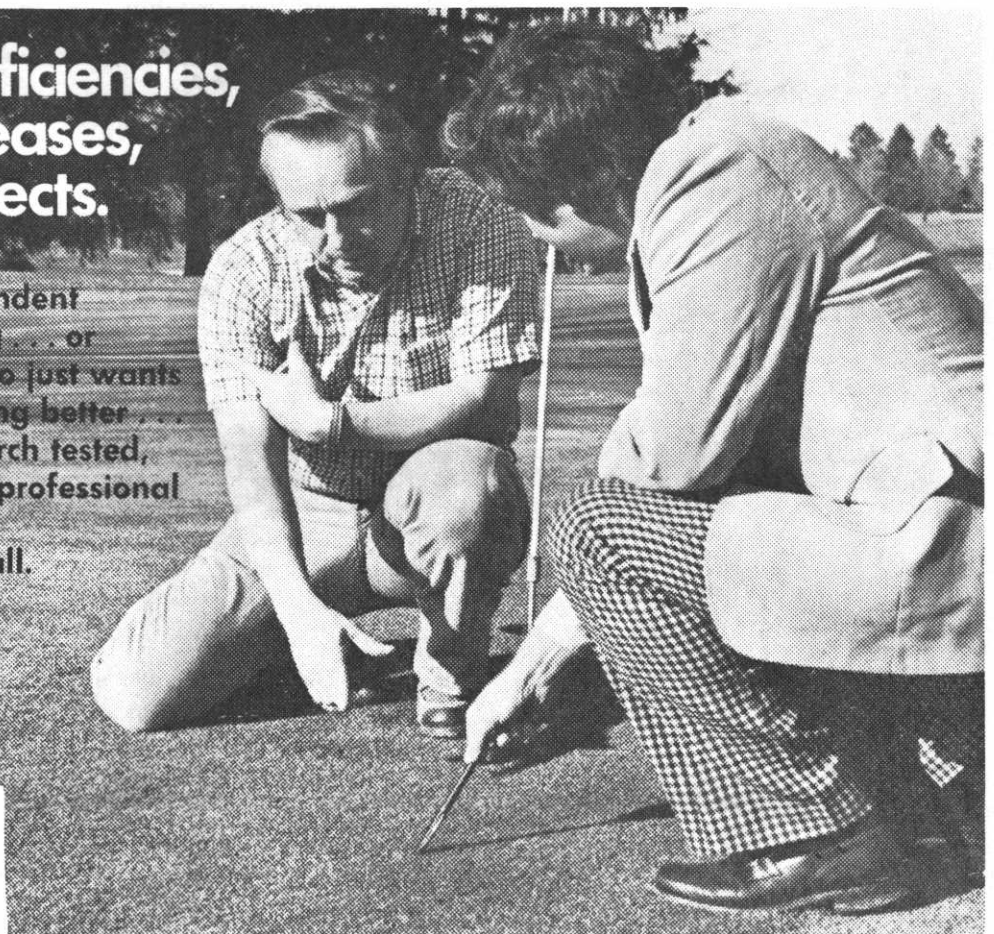

Just give me a call.

Turf-Vac

The all-vacuum operated Turf Vac picks up grass clippings, leaves, thatching debris, paper trash, cans and other types of litter. Sweeping is accomplished without the use of brushes or other mechanical pick-up devices. Lifting action is maintained entirely by means of the powerful vacuum system.

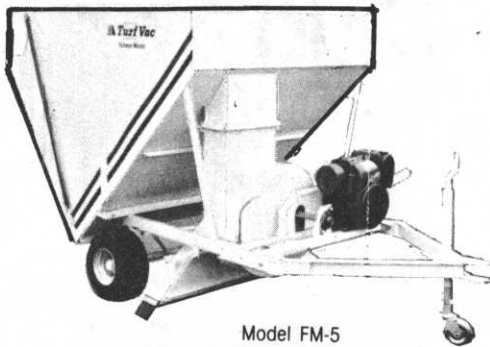

Model GT-S Full 4 1/2" Sweep

The Turf-Vac Model GTS is a heavy-duty vacuum sweeper designed to be towed easily by commercial and garden tractors as well as rider-type mowers.

Model FM-10
Sweeps 9'8" Swath

Like all Turf-Vac units, the FM-10 operates efficiently on both turf and paved surfaces, under both wet and dry conditions.

Model FM-5

— Full 5' Sweep— Huge Hopper Capacity— Easy Dump— Floating Scoop— Easy Transport— Low Maintenance— Picks up Wet or Dry

SPECIFICATIONS

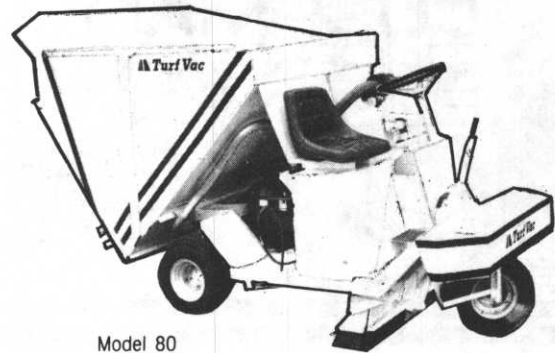

Engine: 16 HP Engine

Frame: welded structural steel

Hopper: 5 cu. yards Welded steel construction

Overall: Width 5'-4"

Weight: 1050 lbs. 1250 Shipping Weight

Model 80
Rider FULL 54" SWEEP

This sweeper is a vacuum pick up unit designed for use in areas where maneuverability is of concern. It is especially desirable when sweeping of both turf & paved areas is necessary. No brushes or reels to change or replace. A true low cost machine to operate.

MEET YOUR SUPERINTENDENTS !

JIM LINDBLAD has been the golf course superintendent at the Wayzata Country Club since the fall of 1974. Although young in appearance, Jim is long in experience having logged time at a number of clubs including Hazeltine, Normandale, Brookview and Rolling Green. A member of M.G.C.S.A. since 1962, Jim acquired his formal turf education at Penn State University. Jim has also been very active in the inner workings of the association having served on the board for the past six years and as president of M.G.C.S.A. in 1977. An outdoor enthusiast, Jim loves any outdoor activity including motorcycle riding and water skiing. However, Jim confided that his favorite hobby is spending time with his lovely wife, Judy, and their two children.

GERRY BIBBEY has the opportunity and challenge that very few golf course superintendents ever face, the preparation of a golf course for a national tournament each and every year. The LPGA Patty Berg Classic is acclaimed by the players as being played on one of the most finely groomed golf courses they play during the season. Quite a compliment to Gerry who has been the golf course superintendent at the Keller Golf Club since 1971. Previously, Gerry had worked with Russ Adams at the University Golf Club for nine years and also at the New Richmond Golf Club in Wisconsin. When not working on the course, Gerry might be found playing it as he lists playing golf and hockey as two of his favorite hobbies. Gerry and his wife, Barbara, have one son.
