

MILORGANITE

1983 PRICES

1-3 ton \$185.00 F.O.B. Chaska
 3-5 ton \$175.00 F.O.B. Chaska
 Truckload Bag .. \$125.00/ton + Freight
 Truckload Bulk .. \$100.00/ton + Freight

LANDSCAPE & TURF SUPPLY

GOLF FAIRWAYS . . . One to three applications a year at 600 to 1,000 pounds per acre provide a rich, velvety turf. Milorganite-fed turf needs less water due to Milorganite's low salt index. Dormant winter applications hasten spring greenup and make better use of labor on golf courses and sports fields.

GOLF GREENS AND TEES . . . Milorganite feeding (write for detailed program) — as the source of nitrogen, phosphorus, and all minor elements — simplifies maintenance. This fertilizer insures a uniform and continuous growth. Dollar spot and other turf diseases are less frequent and less severe according to tests at noted Agriculture Experiment Stations. Less fungicide is needed to prevent or stop them. Milorganite assures optimum turf color and density — true quality.

ATHLETIC FIELDS . . . Ample Milorganite every 4 to 6 weeks of growing weather is the secret of good grass cover on heavy wear sports fields. A dormant application following the last game is widely practiced for early spring "greenup."

MILORGANITE ANALYSIS

	Percent
Nitrogen	6.25
Phosphorus	2.38
Potassium	0.315
