

Let's Get Planting

(Continued from Page 6)

ers take a close-up shot of the flower, then either compare the flower in a book or go to a garden center for help. To get a good idea of flower performance, plus it's worth the trip to Vaughans Growing Range located just outside of Northfield. For now you might want to check out the open houses that occur during the month of May at several garden centers and area greenhouses to make a list of specific varieties that go good together.

The following companies may have seed catalogs available that can assist you in flower variety selection:

Vaughan's Seed Company
5300 Katrine Ave.
Downers Grove, IL 60515-4095

Harris Morgan Seed Company
3670 Buffalo Rd.
Rochester, NY 14624

 The Ex Stands For Excellence

**Why the EX STANDS FOR EXCELLENCE
 in professional turf care.**

- Par Ex is the only professional fertilizer line containing IBDU, undisputedly the finest slow release Nitrogen source in the world.
- IBDU gives you the highest level of WIN, or Water Insoluble Nitrogen.
- IBDU delivers all of its Nitrogen in a single growing season.
- The Nitrogen release rate of IBDU is generally affected by only two factors: soil moisture and granule size.
- Slower release makes Par Ex products perfect for your Fall Fertilization program.
- Fewer applications are required, labor costs are cut.
- The salt index of IBDU is the lowest of all commonly used fertilizer materials.
- IBDU fights nitrate pollution because very little Nitrogen is lost through leaching or volatilization.
- Choose from over 60 different product formulations.

FIVE STAR

DEEP

AERIFYING CO.

NOW CAN DO IT ALL!!!

**We are a custom contractor
selling aeration services using the:**

VERTI-DRAIN®

- Maximum depth of 12".
- Allows you to change the soil profile of your greens.

OR

TORO HYDROJECT®

- Depth of 8" on a single pass.
- Allows you to aeriate any time of the growing season.

In the spring or fall we can aeriate your greens with the Verti-Drain® and on the same day aeriate your tees and collars with the HydroJect®

In the summer months, when your greens are under heavy stress and when relief is needed most, we can use the HydroJect® to re-vitalize your greens without interruption of play.

DEEP aerifying promotes improved root development, and increases water, oxygen and nutrient infiltration.

For healthier, better-looking turf, **DEEP** aerify!

WHEN YOU NEED DEEP AERIFICATION

THINK FIVE STAR!

**GCSAA to Celebrate
65th Anniversary,
Dedicate New
Headquarters Building**

GCSAA will celebrate the association's 65th anniversary with the official dedication of its new headquarters building in Lawrence, Kan., on Sept. 6-7. All GCSAA members are invited.

The celebration kicks off with a golf event and barbecue on Friday, Sept. 6. Formal dedication ceremonies will take place Saturday, Sept. 7.

Several hundred visiting superintendents, political and industry VIPs, local Chamber of Commerce dignitaries, media and other guests are expected to attend. Orientation presentations and building tours will be part of the dedication ceremony.

The golf event field is limited and entries must be received by May 31. The other activities, such as the breakfast, barbecue or dedication ceremonies, require an RSVP by August 9.

Roger Null Repeats As GCSAA Golf Champion

After firing a first-round 69 on Scottsdale's Papago Golf Course, Roger Null, CGCS, held on with a final round 75 at Stonecreek, The Golf Club, to defend his GCSAA Golf Championship title and win for the third time in eight years.

In winning, Null, the superintendent at Norwood Hills Country Club in St. Louis, Mo., took home the Bobby Jones trophy and the USGA traveling trophy.

On the distinction of winning the GCSAA Championship three times Null said, "I work hard at my golf game. This just feels great. It makes me feel that it's all worthwhile. And to win in front of my peers is great. It's a good feeling." Null's first GCSAA Championship was in 1983.

Two strokes back in second place was another three-time champion, Dave Powell, superintendent at Myers Park Country Club in Charlotte, N.C.

The Carolinas GCSA team won the Scottish Trophy for winning the gross division of the chapter team competition. The Frank Lamphier Trophy, awarded to the winner of the net division in the chapter team competition, went to the New England #2 team.

More than 500 competitors teed it up for this year's championship, contested at five Scottsdale, Ariz., courses: the Palm and Pine courses at McCormick Ranch Golf Club, Orange Tree Golf Resort, Papago Golf Course and Stonecreek, The Golf Club.

The 1992 GCSAA Golf Championship will be held February 10-11 in Ponte Vedra Beach, Fla.

The chapter team and flight winners were:

- Chapter Team (gross) - Gary Bennett, CGCS, Crickentree GC, Blythewood, S.C.
Chuck Green, Florence CC, Florence, S.C.
Leonard Hill, Jr., Palmetto GC, Aiken, S.C.
Dave Powell, Myers Park CC, Charlotte, N.C.
- Chapter Team (net) - James Beane, CGCS, Mt. Pleasant CC, Boylston, Mass.
Donald Hearn, CGCS, Weston GC, Weston, Mass.
Paul Jamrog, The Orchards GC, South Hadley, Mass.
Gary Luccini, Franklin CC, Franklin, Mass.
- Championship Flight (0-6 handicap) - Roger Null, CGCS, Norwood Hills CC, St. Louis, Mo.
- 1st Flight (7-12) - Gross: Glenn Smickley, CGCS, RTJ International, Gainesville, Va.

EDITOR'S CORNER

By John Harris
The Lafayette Club

I can't recall a spring when the weather had such drastic mood swings. Warm dry, wet cold, and sunny cool.

For the most part, Minnesota superintendents opened their courses to thriving greens and good growth in all areas with very little winter kill. This is good news to us all and, in particular, Chris Hague and his staff.

I would like to thank Chris for granting myself and Scott Turtinen the time he extended us to conduct an in-depth interview regarding the preparation taking place at Hazeltine for the Open. The article in this issue containing excerpts of that interview revolve around March, April and May. Another article will appear in the June issue and cover much of the final and tournament day preparations.

* * * *

The March Mini-Seminar was well attended and the people at the Northland Inn were very accommodating. Members of the MGCSA had some concerns over the timing and the back-to-back seminars. The board of directors is aware of this and is looking into making some schedule changes in regards to the matter.

* * * *

The Scholarship Committee is accepting applications for the Harold Stodola Memorial Scholarship. If any of you know of someone that qualifies, encourage them to contact Joe Moris at Tartan Park for an application.

* * * *

The Environmental Committee a "Laws and Compliances Guidelines" booklet. The method of distribution is still being discussed due to the size and expense of this publication, but it should be available soon.

* * * *

The May monthly meeting will be held at Pebble Creek. Host Superintendent Cary Femrite and his staff will have this exciting facility in top form for our enjoyment. Hope to see you there.

ABOUT THE COVER

Pictured on the cover is an attractive flower garden at Oak Ridge Country Club.

Cover-up.

Underneath some beautifully conditioned, championship golf courses are mountains of trash, the scars left by years of garbage replaced by a beautiful, invaluable green belt. And, landfill covers are only one way today's professionally managed golf courses are helping make our world a better place.

Who's in charge of keeping these amazing ecosystems in harmony with nature? Today's golf course superintendents. They're part troubleshooter, part business manager, part scientist and all environmentalist — dedicated to making our world a greener place.

WE KEEP GOLF GREEN.

COMPARING APPLES TO APPLES???

YOU SHOULD BE COMPARING

“THE CORES”

Faster is not always better. The speed of an aerifier is not a true indicator of aerifying performance! Other factors to be considered in aerifier selection are: **DEPTH OF PENETRATION** and **NUMBER OF HOLES PER SQUARE FOOT**.

The Ryan GA-30 penetrates turf to a depth of 3¾". A full ¾" to 1" deeper than other models. Aeration patterns can be adjusted from 1" hole spacing for intensive aerifying and renovation, on up to a full 5" spacing for general purpose uses.

You ride instead of walk, and transport between areas at a full 6 MPH.

If you are in the process of trying to compare one aerifier to another, *GIVE US A CALL*. We'll show you how to compare **THE CORES**, so you don't end up with a bad apple!!!
