

CUSHMAN TURF SPRAYER

MODEL LP 100 LOW PROFILE TURF SPRAYER

Minnesota Wanner's unique mounting system makes taking sprayer in or out of vehicle box a breeze. Better visibility and handling are the result of the new low-profile tank and base.

COMPONENTS AND SPECIFICATIONS

- 100 gallon premium style fiberglass tank features large sump and multi jet agitator.
- Easy to use slide-in-box mounting system.
- Rugged PTO-driven centrifugal pump has stainless steel shaft and viton seals. Handles a wide variety of turf chemicals, including powders.
- Large capacity strainer and liquid-filled pressure gauge are included.
- 15' three section boom features adjustable tension "breakaway" hinges and full-length tree guard. Includes QuickJet nozzle system with flat fan or raindrop type tips.
- 7-way free valve provides complete control of boom sections.
- Trigger-type spray gun and 50' of high pressure lightweight spray hose.
