

Ransomes® 300

■ PERFORMANCE

- Floating heads with variable weight transfer designed for hugging ground contours
- 26" x 6.5" reels
- 7 or 11 blades, precision ground and dynamically balanced
- Large 26 x 12.00-12 front tires coupled with 20.5 x 8.00-10 rear tires provide increased traction and reduced compaction

■ PRODUCTIVE

- 116" cutting swath
- 5- to 7-mph mowing speed
- 38-hp Kubota, liquid-cooled diesel engine
- Direct hydraulic drive to cutting units
- Optional 4-wheel drive unit

■ SERVICEABLE

- Backlap through reel control lever
- Easy accessibility of power unit
- External diagnosis of hydraulics through test port bank
- Interchangeable cutting heads

■ EASY TO OPERATE

- Reel to bedknife adjustment is through simple hand micro adjusters
- Cutting height adjustment from .25" to 1.5"
- Operator positioned up front for increased visibility of cutting units
- Single foot pedal speed control
- Cross-cut capability standard

■ OPERATOR COMFORT

- Deluxe, fully adjustable high-back seat with height adjustment and armrests
- Power steering
- Tilt steering wheel
- All controls within easy reach of operator

■ BUILT TO LAST

- Rugged hydrostatic drive system
- Blades and bedknives are of the highest quality and hardness
- Sturdy chassis constructed of heavy-duty box frame and plate steel
- Heavy-duty variable displacement hydraulic pumps
