

No belts. No pulleys. No kidding.

The Jacobsen HR-5111's exclusive Multi-Motor deck design delivers a whole new angle on rotary performance.

Individual hydraulic motors drive each blade for unmatched cutting power, while eliminating time-consuming routine maintenance. This design also enables the blades to rotate in opposite directions for more even clipping dispersal. Team that with our floating-decks, and you've got a cut so clean you'd swear it was done by a reel mower.

Individual hydraulic motors drive each blade for unmatched cutting power and reduced maintenance.

A full 11' cut and 51 horses of liquid-cooled diesel power let you mow up to 65 acres a day. Plus, agile rear-wheel power steering, a compact design and hydrostatic 4WD allow you to cover ground that other production rotaries simply can't.

For more information about this serious producer, or to see one in action, contact your Jacobsen dealer today.
