## PRESIDENT'S MESSAGE

It was a real pleasure being host to the MAGCSA at Beaver Creek C.C. We had a delightful day and I hope everyone enjoyed themselves.

It is quite evident our job as golf course superintendents should not stop on the golf course. We as well as our numbers have to keep our eyes on our politicians and just what they may be trying to push into legislation.

A short time ago, George Thompson called me about a bill that was going before the House. It was to prevent anyone from doing any mowing, operating golf cars, jack hammers and just about any piece of equipment that made any noise from the hours of between midnight and ten o'clock in the morning on Saturday and Sunday. This would just about curtail any work that we could do before the golfers came out in droves.

We made a few calls to some politicians that had some pull and helped defeat this bill before it made any headway.

If such a thing as this comes to the attention of any superintendents, be sure to contact an officer or director so we can take measures to prevent this from happening if necessary.

P.S. Bert got some great press coverage from the Hagerstown Daily Mail, the local daily up there from the meeting. Pics, articles, the whole bit. It sure is too bad the sports writers here in the metro Washington aren't half as interested!
