baron

KENTUCKY BLUEGRASS*

*U.S. Plant Patent #3186, Dwarf Variety

**A professional grass
for professional people**

One reason Baron is the choice of most professionals is the combination of fast germination, slow growing and its ability to quickly form what sod growers call "a tight-fisted root system." You can mow Baron as low as 3/4-inch — and that's another reason Baron is ideally suited for golf courses, sod fields, fine lawns, industrial and other landscaping areas. Since Baron is winter hardy, it keeps its deep green color well into the cold months. . .highly disease-resistant, too.

Talbot Country Club

April 8th Meeting

The April 8 meeting will be at the Talbot Country Club, Easton, Maryland. Your host, Ralph McNeal, was born and raised in Talbot County and was a dairy farmer before going to work at the country club in June 1963. Ralph, being a farmer and hard worker, knew how to make things grow. Through self education in the turf field, and the services of the USGA representative Holman Griffin, he has done an outstanding job.

The golf course was originally a nine-hole course and was opened in 1910. In 1962 the services of Edmund Ault was acquired to add nine holes and re-arrange the original nine holes into an 18-hole championship layout. The work was begun in 1963 and the course opened for play in the spring of 1964. All work was done by Ralph McNeal through a local contractor, Mr. Robert Coleman. The greens average about 9,500 to 10,000 square feet and are Pencross bent, cut 3/16 of an inch. Tees were Merion and creeping red, but over a period of time have become part Bermuda, and it is Ralph's thoughts to encourage the Bermuda.

The fairways are Merion blue, red top and creeping red fescue, mowed about 1 1/4 inch. The rough is a tight set of K31 fescue and mowed about 2 1/2 to 3 inches. The fairways and tees have had water for only three years, manual system all over.

Every winter six or seven fairways are spread with horse manure from Ralph's wife's riding school and horse farm. In addition, there are all the wild goose droppings from thousands of the wild geese that find Talbot Country Club to be their home away from home. It is not uncommon to
