Portland Conference Notes

More than 70 speakers will address 20 educational sessions and four preconference seminars. In addition to more than 500 hours of educational opportunities, the conference and show will offer more than 100,000 square feet of exhibits, tours of the Oregon Seed industry and five Portland area golf courses, a women's program featuring a tour of the Pacific Coast and inland forest areas, social events and the GCSAA annual meeting and election.

Nominees selected for GCSAA election:

President — Theodore W. Woehrle (Michigan)

Vice President — George Cleaver (Maryland); Melvin Lucas, Jr. (New York); Charles H. Tadge (Ohio).

Directors — Three to be elected — the two with the highest number of votes for a three year term, the one with the third highest number of votes for a two year term. Hobart T. Burgan (Oklahoma); David Harmon (Virginia); Edward Dembnicki (North Carolina); James A. Wyllie (Ontario); Louis D. Haines (Colorado).

Exhibitors will be allowed to sell at the Portland Show. Due to a tax reform law, exhibitors will be allowed to take over the counter orders for the first time. Thus, those attending the Portland Conference and Show may for the first time negotiate for the purchase and delivery of products they previously could only examine from a technical and educational point of view.

In a recent check of laws and regulations it was learned that "wearing roller skates in public lavatories is illegal in Portland". Thus, we are urging everyone coming to the Portland Conference and Show February 6 thru 11, 1977, to leave their roller skates at home.

PRO4

Diamond
 Shamrock

Everything you need to control diseases and weeds in turf and ornamentals.

Ten turf diseases and almost 100 kinds of weeds yield to the Diamond Shamrock Pro-4 turf system. One broad-spectrum fungicide. One preemergence herbicide. One postemergence broadleaf herbicide. One postemergence grassy weed herbicide. That's Diamond Shamrock Pro-4. DACONIL 2787®. The new chemistry fungicide. And now it's a flowable, as well as a wettable powder.

DACTHAL® preemergence herbicide controls *Poa annua*, crabgrass and 15 other weeds. Available in two formulations: wettable powder and granules.

DACAMINE® postemergence herbicide. Non-volatile 2,4-D. Kills more than 70 broadleaf weeds.

DACONATE® 6 postemergence herbicide. The organic arsonate with a high-quality surfactant already mixed in.

 AGRICULTURAL CHEMICALS DIVISION Information sheets.

Sterilized Top Dressing Top Soil Peat Humus Shredded Tan Bark Mix

- Our top dressing is formulated especially for the transition zone to specifications recommended by U.S.G.A. and leading universities.
- Eliminates additional liming when used as recommended.
- Absolutely no waste.

All materials are thoroughly mixed and sterilized by indirect heat in our special process, in which the sand particles are actually coated with a mixture of topsoil and peat humus so that it is a completely homogenous mixture and will not separate during handling and spreading.
